-------------	------

NITRATE OF SODA

100 lb sack	
Ton lots or more	

HAIRY OR WINTER VETCH

A fall crop that gathers nitrogen from the air like clover. Makes an excellent hay, and is a splendid fertilizer and soil improver. It pays to inoculate vetch before sowing. Sow 1 bushel of rye and 20 pounds of vetch to the acre.

Winter or Hairy Vetch,
per 100 lbs. \$ 9.50

CRIMSON CLOVER

An annual clover that can be sowed at this time of the year which as a soil improver, a hay crop or grazing crop can't be beat, provided there is a reasonable amount of rain during the fall months. Crimson Clover will do everything for the land that Rye will do; in addition it is a legume and fertilizes the land by adding nitrogen. Tobacco after Crimson Clover has a color and quality that cannot be surpassed. It is sown in August and September, the sooner the better, at the rate of 1 bu. to 3 acres.

Crimson Clover, per bushel. Ask for prices

DWARF ESSEX RAPE

One of the cheapest and best crops for grazing. Sown in July to November broadcast, 6 to 8 lbs. to the acre—drilled 3 lbs. to 5 lbs. to the acre.

Dwarf Essex Rape, per 100 lbs. \$ 5.50
